

Instructions for Qualatex® Rainbow

To keep assembly time to a minimum, gather the materials and read through the instructions before beginning.

Labor: About 25 Minutes

Helium: 33 cu. ft.

Materials:

17 12" (30cm) Dark Blue Quick Link Balloons™ 65215

14 12" Green Quick Link Balloons 65224

11 12" Lime Green Quick Link Balloons 65217

8 12" Yellow Quick Link Balloons 65214

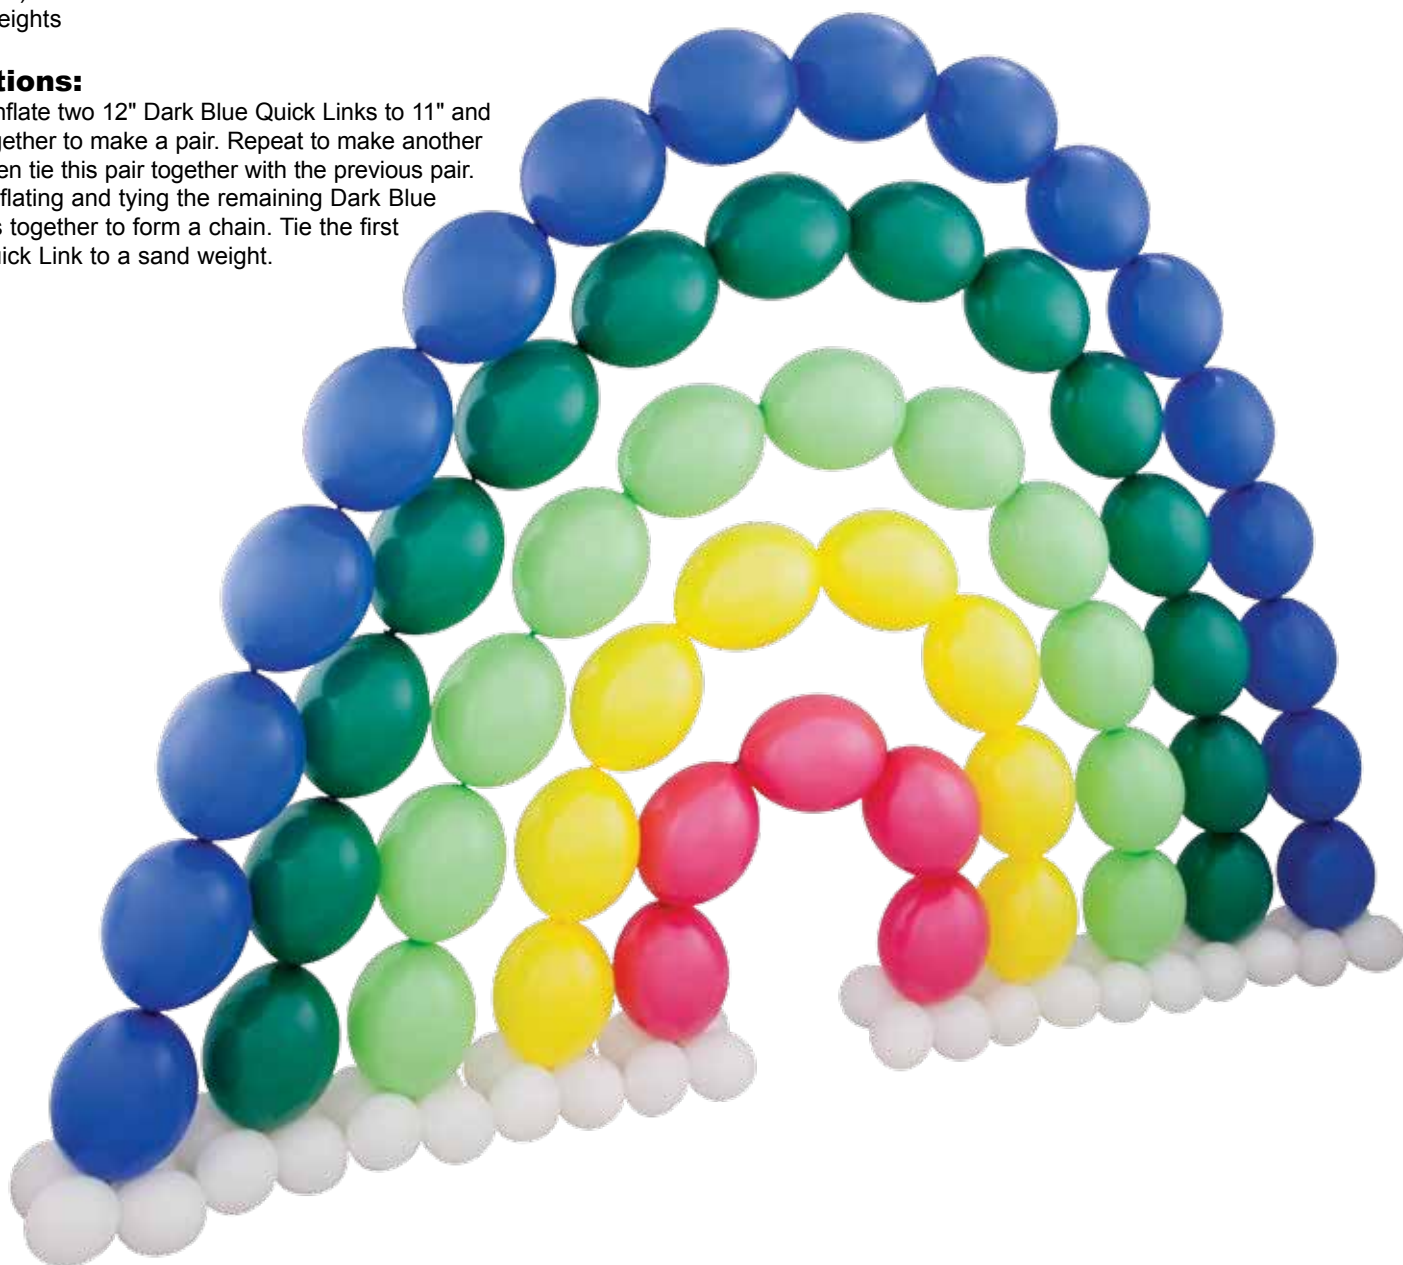

5 12" Wild Berry Quick Link Balloons 65225

40 11" (28cm) White Latex Balloons 43802

10 Sand Weights

Instructions:

1. Helium inflate two 12" Dark Blue Quick Links to 11" and tie them together to make a pair. Repeat to make another pair, and then tie this pair together with the previous pair. Continue inflating and tying the remaining Dark Blue Quick Links together to form a chain. Tie the first and last Quick Link to a sand weight.

2. Repeat Step 1 with the specified amount of Green, Lime Green, Yellow, and Wild Berry Quick Links.
3. To make the "clouds," inflate four 11" White latex balloons to 6" (15cm) and create a 4-balloon cluster (see "4-Balloon Cluster" below). Wrap the cluster around a sand weight. Repeat to create nine more 4-balloon clusters and wrap them around the remaining sand weights.
4. Position the Quick Link chains to form a rainbow design as shown.

TIPS

- Increase or decrease the size of the rainbow by changing the number of Quick Links used.
- Treat the Quick Links with Ultra HI-FLOAT® to increase the float time.
- Hook the Dual Split Second Sizer up to your helium tank to quickly inflate precisely-sized Quick Links.

WARNING:

CHOKING HAZARD

Children under 8 years may choke or suffocate on uninflated or broken balloons. Adult supervision required. Keep uninflated balloons from children. Discard broken balloons at once.
