

Instructions for Qualatex[®] Lovely Heart

To keep assembly time to a minimum, gather the materials and read through the instructions before beginning.

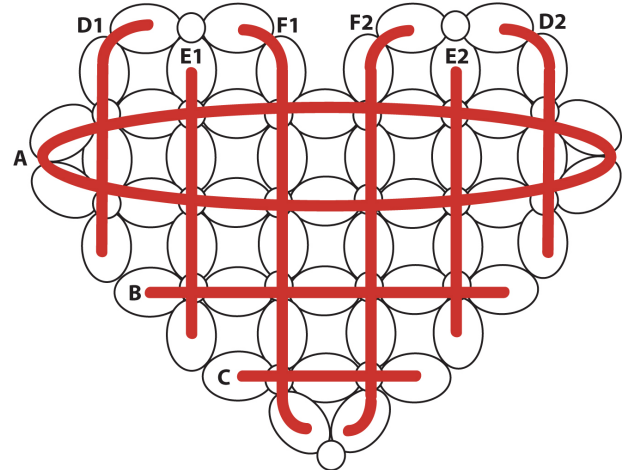

Labor: About 45 Minutes

Materials:

- 50 12" (30cm) Wild Berry Quick Link Balloons™ 65225
- 43 5" (13cm) Wild Berry Latex Balloons 25571
- Monofilament (Fishing) Line

Instructions:

- Inflate two 5" Wild Berry latex to 4" (10cm) and tie into a pair. Repeat to make 19 more pairs. Set aside.
- Inflate the following Quick Links to 10" to make the components of the heart:
 - One loop of 14 Quick Links (see **A** in illustration)
 - One chain of five Quick Links (see **B** in illustration)
 - One chain of three Quick Links (see **C** in illustration)
 - Two chains of four Quick Links each (see **D1** and **D2** in illustration)
 - Two chains of four Quick Links each (see **E1** and **E2** in illustration)
 - Two chains of six Quick Links each (see **F1** and **F2** in illustration)

TIPS

- Use the Conwin Precision Air® to precisely inflate two balloons at a time, ensuring consistent sizing and professional results.
- Display this heart in your store leading up to Valentine's Day to create excitement and show customers a new idea.
- Promote this design as a great decor idea or photo backdrop for school dances, weddings, and anniversary celebrations.
- Apply Balloon Shine™ to prevent oxidation and keep the balloons looking fresh longer.

3. Position the loop (A) on the ground and the two horizontal chains (B and C) below it. Starting on the left side, place the vertical chain of four (D1) on top of the loop so that the knots intersect. There should be two Quick Links above the loop and one Quick Link below the loop. Secure the Quick Links by wrapping a 4" pair from Step 1 around the two intersections. Position one 4" latex on the front and one on the back. **TIP:** Make sure to twist the 4" balloons completely around each other to lock them in place.

- 4.** Add the next vertical chain of four (E1) in the same manner, connecting it to the loop and also the horizontal chain of five (B).
- 5.** Add the next vertical chain of six (F1) in the same manner, connecting it to the loop and the two horizontal chains (B and C).
- 6.** Repeat Steps 3-5 to add the remaining Quick Link chains (D2, E2, and F2) to the right side of the heart.
- 7.** Tie all of the adjacent Quick Link tips together on the outer edge to form the border of the heart. (The Quick Links at the top of D1/F1 and D2/F2 will curve inward to form the lobes.) Carefully trim the excess necks and tails of the knots.
- 8.** Wrap the two remaining 4" pairs from Step 1 onto the knots at the top of each lobe.
- 9.** Inflate two 5" Wild Berry latex to 4" tie into a pair. Inflate a third Wild Berry latex to 4" and tie it into the pair. Wrap this cluster onto the bottom point of the heart.
- 10.** Suspend with monofilament line.
