TIPS

- Increase or decrease the size of the Arch by changing the number of Quick Links used.
- Treat the Quick Links with Ultra HI-FLOAT® to increase the float time.
- Hook the Dual Split Second Sizer up to your helium tank to quickly inflate precisely-sized Quick Links.
- Change the colors and pattern to coordinate with any theme or occasion.
- Add small 4-balloon clusters to hide your weights.

2. Repeat Step 1 to make an identical chain of Quick Links and tie one end to another sand weight. Set aside.

3. Inflate two pairs each of 5" Dark Blue, Green, Lime Green, and Yellow latex balloons sized to 3.5" (9cm). Set aside.

4. Place the two Quick Link chains side-by-side. Starting at the weighted end, cross one of the Dark Blue Quick Link pairs over the adjacent Dark Blue Quick Link pair (forming an "X" shape). Wrap a 3.5" Dark Blue pair around the intersecting knots, positioning one on the front and one on the back. **TIP:** Make sure to twist the 3.5" balloons completely around each other to lock them in place.

5. Repeat Step 4 to make an "X" shape with the remaining like-colored pairs of Quick Links and wrap 3.5" pairs around each center as shown to secure.

6. Tie the other end of each chain onto a Dark Blue sand weight.
